The below shipping cost estimations are only valid for the year 2023. Please be aware that the rates do not include any additional courier surcharges such as fuel, remote delivery, peak, etc.. These will be billed additionally.

### Calculate Dimentional Weight

Here is how to calculate the dimentional weight of your packages. The couriers either charge you by the actual weight or the dimentional weight, whichever is higher.

Formula:

$$\text{(Length x Width x Depth) / 139 = Dimentional Weight (Round up to the nearest whole number)}$$

Example:

L	W	D
12 inch	11 inch	10 inch

DIM Weight: 9.50 lbs  
Round up: 10.00 lbs

UPS: Any fraction of a pound more than the weight shown in the rate chart is rounded up to the next listed weight.

Listed prices are given as an indication on what we believe to be the final charges provided by the carrier. FHU does not guarantee these costs and the bill from the carrier may have additional unforeseen costs due to fuel, seasonal, handling and destination surcharges that may be imposed.

The below shipping cost estimations are only valid for the year 2023.  
 Please be aware that the rates do not include any additional courier surcharges such as fuel, remote delivery, peak, etc.. These will be billed additionally.

## USPS First Class Mail - Package (B2C / B2B)

Ideal for very small & very light packages. Service quality and delivery time can be inconsistent.

	Zone(s)								
	Zone 1	Zone 2	Zone 3	Zone 4	Zone 5	Zone 6	Zone 7	Zone 8	Zone 9
